Dear Customers:

Our records indicate that you have received some of our AN-2250 Chemical Indicator – Tape Within the past two years or currently have an open order for this product.

The current manufacturer has discontinued this product.

We have found an alternative tape with the same function and are doing final testing on this tape. As soon as our final testing is completed we will begin offering this tape for sale under our same AN# 2250.00 part number.

Please allow us about 8-10 weeks to complete this change.

Andersen Products, Inc. values our customers and strives to achieve the best products for our customers.

We apologize for the delay in finding a different supplier, but the additional tests were performed to confirm the acceptability of the new tape.

Please contact Customer Service at 800-523-1276 with any additional questions or concerns.

Sincerely,

A handwritten signature in cursive script that reads "Ann Holt".
